Customer Problem Statement

I am
I'm trying to
But
Because
Which makes me feel

I am

A customer support executive

I'm trying to

Manage customer records, complaints and follow-up activities efficiently.

But

Customer information is stored in multiple spreadsheets and paper records, making it difficult to track requests.

Because

There is no centralized system to register customer data and initiate support activities.

Which makes me feel

Frustrated, overwhelmed, and concerned because customer issues are hard to register.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A customer support executive	Manage customer records and complaints efficiently	Customer information is scattered across spreadsheets and paper records	There is no centralized customer management system	Frustrated and inefficient
PS-2	A customer service manager	Track support requests and monitor team performance	It is difficult to monitor customer status and follow-up activities	The existing process is manual and lacks real-time tracking	Overwhelmed and concerned about service quality
