

Project Design Phase

Problem – Solution Fit

Date	13 July 2026
Team ID	
Project Name	Customer Registry
Maximum Marks	2 Marks

Problem – Solution Fit :

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- Solve complex problems in a way that fits the state of your customers.
- Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- Sharpen your communication and marketing strategy with the right triggers and messaging.
- Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems

1. WHO IS YOUR CUSTOMER?

- Small and medium-sized businesses
- Customer Support Executives
- Customer Service Managers
- Organizations handling customer complaints and service requests

2. EXPLORE LIMITATIONS TO BUY / USE YOUR PRODUCT OR SERVICE

- Limited budget for customer management software
- Lack of technical expertise among staff
- Resistance to switching from manual processes
- Existing customer data is scattered across multiple files
- Time required for staff training

3. HOW ARE YOU GOING TO BE DIFFERENT THAN COMPETITION?

- Centralized customer record management
- Integrated complaint and ticket tracking
- Real-time dashboard with analytics
- Easy-to-use and responsive interface
- Secure user authentication and role-based access
- Affordable solution for small businesses

4. FOCUS ON FREQUENT, COSTLY OR URGENT PROBLEM TO SOLVE

- Manual customer record management
- Delayed complaint resolution
- Missed follow-up activities
- Duplicate customer records
- Difficulty tracking customer status
- Poor communication between support teams

5. UNDERSTAND THE CAUSE OF THE PROBLEM

- No centralized customer management system
- Heavy dependence on spreadsheets and paper records
- Lack of real-time monitoring
- Manual data entry leading to errors
- Inefficient coordination among departments

6. TAP INTO, RESEMBLE OR SUPPORT EXISTING BEHAVIOR

- Continue using customer details already collected
- Support existing support workflows
- Integrate with email and phone communication
- Familiar dashboard layout requiring minimal training
- Digital replacement for manual registers

7. DESIGN TRIGGERS THAT FIT REAL LIFE, SPARK ASSOCIATIONS, MAKE IT FAMILIAR

- Dashboard notifications for pending complaints
- Follow-up reminders
- Status updates for customer requests
- Priority indicators (Low, Medium, High)
- Quick search and filtering options

8. ADD EMOTIONS FOR STRONGER MESSAGE

- | | |
|---|--|
| BEFORE <ul style="list-style-type: none"> • Frustrated • Stressed • Overwhelmed • Confused | AFTER <ul style="list-style-type: none"> • Confident • Organized • Productive • Satisfied • In control |
|---|--|

9. YOUR "DOWN TO EARTH" SOLUTION GUESS

Develop a **Customer Care Registry**, a centralized web-based application that enables organizations to manage customer records, complaints, support tickets, follow-ups, and analytics efficiently. The system reduces manual effort, improves response time, enhances data accuracy, and increases customer satisfaction through an easy-to-use dashboard and secure management features.

10. BE WHERE YOUR CUSTOMERS ARE

- Customer support departments
- Small and medium enterprises
- Service centers
- Corporate offices
- Help desks
- Businesses requiring customer relationship management
